The experience combines a visit to two community coexistence projects located in a remote part of the Okavango Delta. Human & Wildlife conflict is a daily concern for many people living remotely in Botswana. The CLAWS project is run by the community to reduce carnivore conflict and benefit livestock owners with veterinary assistance and improved rangelands. The Life With Elephants project, located in the traditional Hambukushu village of Eretsha, was created by the conservation NGO, Ecoexist, in an effort to increase benefits coming back to communities that coexist with elephants. Experience the Okavango Delta and the diverse landscape from above on your return flight. By booking this experience you offer support to both projects.
